PG Department Of Kaychikitsa

Sr.no.	Name	Topic Name	Guide Name	Year
1)	Dr. Kalyani Nalkande	A comparative study of therapaetic effect of sinduradhya tallam with pathadya choorna & haridradi tailam with kusthakalanalo ras in the management of vicharchika, A randomised controlled study.	Dr. S.B. Jamdhade	2017-18
2)	Dr.Shashikant Laturkar	Randomized open controlled clinical trial to evaluate the efficacy of oral adminstration of haritaki yoga and local application of mulakbeejadi lepa in management of dadru kushtha with special refrence to tinea.	Dr.S.K.Jaiswal	2017-18

3)	Dr. Mahesh Jadhav	Randomized open controlled clinical study to evaluate the efficacy of kubjavinod rasa orally and mahakanak taillocally in management of amavata with special reference to rheumatoid arthritis.	Dr. S.B. Jamdhade	2017-18
4)	Dr. Anil Yadav	Randomized control clinical trial to study of efficacy of kushmand khand in management of urdhwaga amlapitta.	Dr. M. S. Jaiswal	2017-18
5)	Dr.Dhiraj Podar	Randomized open controlled clinical study to evaluate the efficacy of oral administration of nimbyoga in management of anurjata janya twaka vikar (sheetpitta) with special refrence to urticaria,	Dr. S. K. Jaiswal	2017-18
6)	Dr. Shoaib Shaikh	A randomized controlled trial to evaluate the efficacy of chavyadi churna in the management of medoroga with special refrence to hyperlipdemia.	Dr. S. K. Jaiswal	2017-18

7)	Dr. Amol Mungale	Randomized controlled clinical	Dr. S. K. Jaiswal	2018-19
----	------------------	--------------------------------	-------------------	---------

		study to evaluate the efficacy of Pama-Dadru-Vicharchikahar Lepa (1) topically in the management of Vicharchika (Eczema).		
8)	Dr. Pravin Kendre	Randomized controlled clinical study to evaluate the efficacy of Bakuchikadyam Choorna orally and Manashiladi tailam topically in the management of Vicharchika (Eczema).	Dr. S. B. Jamdhade	2018-19
9)	Dr. Eshwari Paratkar	Randomized controlled clinical Trial: To evaluate the therapeutic effect of Rasagutika in the management of Tamaka Shwas with special reference to Bronchial Asthma.	Dr. S. K. Jaiswal	2018-19

10)	Dr. Pallavi Parde	Randomized controlled Trial to evaluate efficacy of SnuhiTailam for local application in the management of Padadari with special reference to Rhagades.	Dr. S. K. Jaiswal	2018-19
11)	Dr. Swati Tayade	Randomized controlled clinical	Dr. S. B. Jamdhade	2018-19

		study to evaluate the efficacy of Sarvang Sundar rasa orally and Mahamash Tail locally in the management of Amavata (Rheumatoid Arthritis).		
12)	Dr. Sneha Borutkar	A comparative study of therapeutic effect of DVIHARIDRADI TAILA locally & LODHRADI LEPA Locally in the management of Mukhadushika with respect to Acne Vulgaris Randomized control clinical trial.	Dr. M. S. Jaiswal	2018-19

13)	Dr. Shubham Jaiswal	Randomised open controlled clinical study of therapeutic effect of sarivadya tail external application as shiroabhyanga with comparison to gunja tail external application as shiroabhyanga in darunaka patients with special referance to pityriasis capitis (dandruff).	Dr. M. S. Jaiswal	2019-20
14)	Dr. Dakshata Patil	Randomized open controlled clinical	Dr. S. K. Jaiswal	2019-20

		study of therapeutic effect of Snuhydya tail externally as shiroabhyanga with comparison to Bhrungaraj tail externally as shiroabhyanga in khalitya patients having an age group 15-60 years with special reference to alopecia.		
--	--	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	--

15)	Dr. Monica Chavan	A comparative study of role of Yogeshwar ras & Shwadanshtradi choorna in management of madhumeha with special reference to Diabetes Mellitus type2 in age group 25-70 year	Dr. S. B. Jamdhade	2019-20
16)	Dr. Namrata Kende	A study of Trijatyadichoorna and Bhallatak tail with compare to Tab.levocetirizine and Tacrolimus ointment invicharchika (eczema) in an age group of 16-70 years, A Randomized Controlled Study.	Dr. S. B. Jamdhade	2019-20
17)	Dr. Bhagyashree Agalave	Randomised open controlled clinical study of therapeutic	Dr. S. K. Jaiswal	2019-20

		effect of oral administration of samsaptak choorna with comparision to avipattikar choorna in the management of the Urdhwaga Amlapitta in an age group of 18-70 years.		
--	--	------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	--

18)	Dr. Tarnaum Khan	A comparative open randomised controlled clinical trial to evaluate THE efficacy of Guduchyadi churna and Punarnava Mandura as internal intervention in the Management of pandu roga (between age group 7-70 years) with special reference to Anaemia.		2019-20
19)	Dr. Anagha Gadge	Randomized controlled clinical study to evaluate the efficacy of Aseetak choorna orally and sahacharadya oil locally in management of Avabhauka with special reference to Frozen shoulder in age group 20 to 70 years	Dr. S. K. Jaiswal	2020-21

20)	Dr. Sonali Jare	A Randomized open controlled clinical trial of therapeutic effect of the oral administration of Amrutadya guggul in the management of sthoulya with special reference to hyperlipidaemia in age group 20-60 year	Dr. S. K. Jaiswal	2020-21
21)	Dr. Dipali Bagde	Randomized control clinical study to evaluate the efficacy of Shwaskasghni Vati in the management of Vataj Kasa in an age group of 20 to 70 year.	Dr. S. K. Jaiswal	2020-21
22)	Dr. Puja Deshmukh	Randomised controlled clinical study to evaluate the efficacy of Vyadhishardul guggul orally and Dashang tail locally in the management of Amavata with special reference to Rheumatoid Arthritis in age group 18-70 years.	Dr. S. B. Jamdhade	2020-21

23)	Dr. Sayali Sirsat	Randomised controlled clinical Study to evaluate the efficacy of Ekvishantiko Guggul	Dr. S. B. Jamdhade	2020-21
-----	-------------------	--------------------------------------------------------------------------------------	--------------------	---------

		orally and Vidravan tailam topically in the management of Vicharchika w.s.r. to Eczema in age group from 18-70 years		
--	--	----------------------------------------------------------------------------------------------------------------------	--	--

24)	Dr. Tushar Dethe	Randomised open controlled clinical study of theurapeutic effect of oral administration of Shiva guggul with comparison to rasna guggul in the management of Vatkaphaj Grudhrasi with special reference to sciatica in age group from 22 to 60 years	Dr. M. S. Jaiswal	2020-21
-----	------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------	---------

25)	Dr. Manisha Gangaji	Randomized open controlled clinical study to evaluate the efficacy of Vishvadi Gugguluorally Ashtakatvar tailam topically in the management of Vatkaphaj Grudhrasi with special reference to Sciatica in age group from 22 to 60 years.	Dr. Y. P. Duddhalwar	2021-22
26)	Dr. Uddhav Gawali	Randomized open controlled clinical study to evaluate the efficiency of 'Trilawan	Dr. S. B. Jamdhade	2021-22

		Pashugandhadi Churna' orally and 'Lakshadi Tailam' locally in the management of Katigraha w.s.r. to Lumber Spondylosis in the age group of 35 to 70 years.		
--	--	------------------------------------------------------------------------------------------------------------------------------------------------------------	--	--

27)	Dr. Prajakta Dhawadkar	Randomized open controlled clinical study of therapeutic effect of Narsinha churna orally and Ankol beej tailam externally as shiroabhyanga in the management of khalitya w.s.r. to hair fall in the age group of 18 to 60 yrs .	Dr. S. B. Jamdhade	2021-22
28)	Dr. Prathamesh Rawekar	Randomized open controlled clinical study of therapeutic effect of oral administration Of Kayyonyadi Churna with comparison to Navayas Loha in the management of Vataj Pandu Roga (women between age group 15-49 years) with special reference to iron Deficiency Anaemia.	Dr. M. S. Jaiswal	2021-22

29)	Dr. Vaishnavi Asole	Randomized open control clinical study to evaluate the efficacy of "Amalakyadiloha" Orally with comparison to "Amlapittantakloha" in the management of Urdhwaga Amlapitta in age group from 18 to 55 years.	Dr. Y. P. Duddhalwar	2021-22
-----	---------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------	---------
